

# MIATECH OUTDOOR MIST COOLING SYSTEMS: SUMMER IS GETTING HOTTER, IT'S TIME TO DECIDE.

## BENEFITS

The industry standard for outdoor misting equipment

Reduce temperature 5-15 ° C (41-59°F)

Eliminate dust, odor, and smoke  
Create a refreshing atmosphere

Helps repel flies, mosquitoes and other insects

Virtually Energy Free, no fans, only a pump to cover a perimeter of up to 80 meters..

Miatech (USA) outdoor mist cooling systems can transform an otherwise dull and sizzling outdoor space to a cool, comfortable and profitable Food & Beverage outlet. Perhaps it's time to take a decision in favor of equipping your outdoor terraces with virtually ENERGY FREE cooling systems from Miatech (USA). The misting nozzles install at a height 2.4 to 2.6 meters and mist to the outside of the terrace (Not toward customers). The mist will also provide an attractive spectacle that would attract customers. In fact there are no limits to imagination when it comes to maximizing benefits from a misting system. For instance, you may direct some colored lighting to the mist by your projectors to enhance the spectacle of misting and attract clientele.

## NO LIMIT TO IMAGINATION IN SATISFYING CLINETELE

People love to sit outdoor, close to nature, when outing from their enclosed spaces. With misting on your terrace providing a comfortable and COOL ambience in the hot summer and offering a spectacular show to attract people form distance , your clientele will triple and you will recover the cost of the system in less than a month. Installation is simplicity itself and can be managed by your own technicians with our supervision or we can do it for you
